Madam, the "CUNY WORK" is over. The FDA cares about one thing and one thing only. Results of the two phase 3 trials. All your ranting and crying won't stop the results from coming out in 9-10 months. You and your I'll incessant crying has had zero impact. It's over, my friend

Its embarrassing that i need to ask this but you guys understand that Hoau-yan Wang and Cassava sciences are two different entities right?

[\\$SAVA](#) is engaged in one of the largest PH3 ALZ trials in history and results are only months away. Maybe STFU and wait?

Where did I say there was no relationship at all? Your trying to invalidate all of the positive data presented by [\\$SAVA](#) because of a 3rd party employed by CUNY.

What do you say about the labs outside of [\\$SAVA](#) that have confirmed Simufilams MOA?

CUNY problems are exactly that, CUNY problems.

CUNY has taken no action against Wang, why do you think that is? Also why wont you answer my previous question about all of the evidence from 3rd parties confirming his research??

Never.

[\\$SAVA](#) had some other incompetent and/or shady people (eg. Cecon/Jockers) run *different* expts in collages with old Wang data, proving exactly nothing, 'published' in the lowest-quality journals around (Frontiers in Aging, 'International J of Molecular Sci')

The whole Jockers FRET angle is a complete joke, because a) aBeta does not specifically bind nAChR7 in the first place; b) their experiment is ridiculous because it doesn't distinguish competitive and noncompetitive inhib and is not consistent with any of Wang's prior BS claims

But to be charitable, I will say that I think the French FRET clowns are just confused and earnestly fooling themselves rather than actively making up their nonsense.

Adrian H @Adrian_H · Mar 21

Bordey seems to be clueless and might have been fooled by her postdoc in my opinion. Still has not corrected basic statistical errors pointed out 2 years ago.

1

1

Adrian H @Adrian_H · Mar 21

And the Bordey paper claimed the opposite effect for Simufilam that Cassava claims. None of it makes a lick of sense.

Bryan Marks @BryanMa39312867 · Mar 22

Lets simplify this. \$SAVA will have data readouts in the coming months from one of the largest PH3 ALZ trials in history.

You claim to be a man of science, so why not follow the scientific method and wait for the results? Instead of coming here to scream "Fraud!!!" at the clouds? is your time that worthless?
